SECTION 52 – QUARTER 1 FINANCIAL REPORT

1. BUDGET PERFORMANCES

1.1 EXECUTIVE SUMMARY

Liquidity Measurement

The current ratio is measuring the short-term solvency of the municipality. It measures the extent to which the municipality's current assets covers its current liabilities. The ratio format divides the total current assets by the total current liabilities as the time or reporting and the norm is that the municipality's current assets will cover its current liabilities by 1.5 times.

The ratio computation was as follows:

$$\text{Current Assets}/\text{Current Liabilities} (\text{R } 1\,306\,349\,435/\text{R } 259\,209\,189) = 5.04$$

Table (i) Current ratio

	September 2023	August 2023
Current ratio	5.04	1.63

The municipality current ratio was above the norm as of 30th September 2023, the cash and short-term investments balances contributed quite significantly to the favourable current ratio as at end of the year under review with a combined closing balance of R 1.041 billion.

Acid-Test Ratio

The acid-test ratio compares a municipality's "quick assets" (cash and accounts receivable) to its current liabilities. It is used to determine short-term liquidity/the ability of a municipality to pay its bills as they come due. The ratio format considers the total current assets less inventory items which will normally be difficult to liquidate though the municipality is not trading entity and divide by the total current assets as at the reporting date with a good ratio considered to be 1:1 at a norm.

The ratio computation was as follows:

$$\text{Current Assets Less Inventory}/\text{Current Liabilities} (\text{R } 1\,306\,349\,435 - \text{R } 212\,731\,334/\text{R } 259\,209\,189) = 4.22$$

Table (ii) Acid-Test Ratio

SECTION 52 – QUARTER 1 FINANCIAL REPORT

	September 2023	August 2023
Current ratio	4.22	1.59

Cash flow management and Investment performance

The municipality's primary bank account closed with a positive balance of about R 42 666 467.51 and short-term investments closed at about R 1 035 391 042.82. The combined interest earned on short investments at amounts to R 7 556 471.60 for the month of September 2023 alone.

Expenditure management

The total invoices received from suppliers were 931 for the month of September 2023, whilst 736 invoices were processed and paid during the September 2023 amounting to R 215 432 684.89 and a total number of 195 invoices were in the process of payment by various user departments as of 30 September 2023.

R 168 530 636.55 in purchase orders, R 47 796 238.41 in sundry purchases, R 65 651 864.28 in capital projects and R 24 125 955.89 in 3rd party payments were processed during the month of September 2023.

The creditors aging was at R 11 067 647.70 as at 30 September 2023. The unit is currently struggling to assist the municipality in paying suppliers within the required 30 day period of invoices due to the delays caused by the deviation from the centralized processes of paying supplier invoices, there is currently a serious deviation from the centralization process on supplier invoices wherein invoices are received directly by the user departments, a process which makes it very difficult to trace the movement and aging of supplier invoices in terms of the invoice tracker.

The unit is also operating with less staff personnel due to the more than 24 months delays in filling the vacant positions within the unit, similar situation with all other units of the budget and treasury office.

SECTION 52 – QUARTER 1 FINANCIAL REPORT

Revenue management

A total of 17 334 readings were captured for the 1st Quarter readings from 13 010 meters could not be obtained due to the no supply of water in some areas, some copper material meters were stolen and some were under repairs and maintenance, billing estimates were effected in areas where actual readings could not be obtained.

Total revenue billing on water and sanitation services was reported at R 41 327 237.47 for the 1st Quarter. Second notices were issued to non-paying customers and the revenue unit has commenced to implement disconnections on expiry of such the last 14-day notices in line the credit control policy of the municipality. The receipts was reported at R 12 959 102.69.

The municipality has unfortunately fallen behind in the implementation of the revenue collection and enhancement activities due to the non-appointment of service providers in areas of meter readings, indigent registers and per-paid metering services, though the revenue unit has and still trying with the limited resources to partially implement some of the activities through the EPWP programme.

The municipality's total own revenue amounts to just 8% of the annual total revenue of the municipality, a clear indication of high-level dependency on government grants and subsidies posing a high risk on the municipality's financial sustainability based on how small the revenue base currently is. There is an urgent need to speedily appoint services providers aimed at assisting the municipality in implementing the revenue enhancement activities given the current capacity limitations which less likely to be addressed permanently in the foreseeable future.

The municipality's revenue base is mainly the supply of water services and sanitation, more resources must be employed towards completing the R 1.3 billion of the incomplete projects inclusive of some water schemes dating back to more than 10 years ago, in addition the R 1.9 billion of completed projects that are currently not yielding any water sources must be reprioritized in terms of the municipality's IDP to address the water back logs around the Sekhukhune area, and as such the revenue base of the municipality will improve and there shall be less dependency on government grants and subsidies.

Supply Chain management

The municipality UIF&W expenditure was as follows:

Irregular expenditure, R 0.00

Fruitless & wasteful expenditure, R 1 088 220.71

Unauthorised expenditure, R 0.00

SECTION 52 – QUARTER 1 FINANCIAL REPORT

R 628 478.75 was the total rand value for all deviations during the 1st Quarter. Deviations were for services procured through processes where it was very impractical for the institution to follow the normal procurement processes.

Asset management

There were additions to the amount of R 43 958 592.95 for the infrastructure additions water supply on the municipality's infrastructure assets for the month September 2023 the financial year. There were no assets disposals or donations received during the September 2023 of the financial year.

Grants performance

The conditional grants for the month of September 2023 reported overall performance of 5,95%. The FMG spending at 25,69%, while the MIG and EPWP were reported at 5,72% and 13,90% respectively.

The details of the conditional grants are illustrated in Table 1 below.

SECTION 52 – QUARTER 1 FINANCIAL REPORT

4. EXPENDITURE MANAGEMENT

Hereunder is an analysis of creditor's payments for the 1st Quarter, July - September 2023, the quantity of the invoices, their percentage and the total amount in rand value, the creditors' age analysis report and third-party payments.

Table 13: SDM Total Payment Summary and Overall performance of paid and unpaid invoices in quantity: July - September 2023

Month: July - September 2023	Total Number of valid and complete invoices Received	Total Number of paid invoices	Variance
Number of Invoices	675	675	0
Percentage	100%	100%	0%

The above table shows that 675 invoices received for the month of July - September 2023 were valid and complete invoices and were paid within 30 days.

Table 14: Overall Summary of paid invoices in rand value for 1st Quarter (July - September 2023)

Months	Rand value of amount paid	No. of items paid
July - September 2023	R	
Invoices 931 Value of R 306 104 695.13	215,432,684.89	736
	70%	79%

Period: 2024 Q1	Total number of invoices Received	Total Number of invalid and Incomplete invoices
Overall Invoices received	931	195
Percentage	100%	21%

A total number of invalid, and incomplete invoices were (195) and as such, were not paid for reasons such as requests for payment not yet signed, GRN's not generated and invoices related queries. Refer to a list of such invoices below and the reasons thereof:

Description	Explanation of report	Challenges	Remedial action
Meter reading for quarter one ending September 2023	Overall meter reading in Q1 shows 57% meters read which is 17338 of 30348 in Quarter 1, access to readings in cycle 3 (LNW Areas) is denied hence zero readings. 43% meters were not read	<ul style="list-style-type: none"> Lack of material to replace /repair faulty meters. Most meters have been stolen Lack of internal capacity to do meter readings Denied access to meter reading in some areas remain a challenge. 	<ul style="list-style-type: none"> Ensure availability of material to replace faulty meters. Installation of prepaid meters in problematic areas EPWP employees are doing meter readings and disconnections. Political intervention where a meter reading access is denied.

Description	Explanation of report	Challenges	Remedial action
Billing report for Quarter 3 ending March 2021	Overall billing has increased by 15% R5.5m in Quarter 1 to R41.3m cycles 2,3 and 4 have showed an increase in billing, 1 and 5 show a decrease. The drop is attributable to less usage in the month and reversal of estimate billing which were replaced with actual readings	<ul style="list-style-type: none"> Faulty /stacked meters Some residents in the villages refusing meter readers to work. Estimate billing where meters could not be read create confusions to most customers Data not clean . 	<ul style="list-style-type: none"> Ensure availability of spares for water meters Political intervention is required in areas where meter reading access is denied. Engage the meter readers to increase their capacity to cover most areas Appointment of Data cleansing provider is in progress
