1. Executive Summary

A. Liquidity Measurement

The current ratio is measuring the short-term solvency of the municipality. It measures the extent to which the municipality's current assets cover its current liabilities. The ratio format divides the total current assets by the total current liabilities as the time of reporting and the norm is that the municipality's current assets will cover its current liabilities by **the norm range between 1.5 to 2:1** as per MFMA Circular no.71.

The ratio computation was as follows:

Current assets/current liabilities

594 549 128,77 / 440 868 786,29

=1.35

Table (i) Current ratio

	September 2026	August 2026
Current ratio	1.35: 1	1.18: 1

The municipality's current ratio was below the norm range of between 1.5 to 2:1 as at the end of September 2026, the cash and short-term investments balances contributed quite significantly to the unfavourable current ratio for this period with a combined closing balance of R350 605 745,28.

Acid-Test Ratio

The acid-test ratio compares the municipality's "quick assets" (cash and accounts receivable) to its current liabilities. It is used to determine short-term liquidity of the municipality. The ratio format considers the total current assets less inventory items which will normally be difficult to liquidate though the municipality is not trading entity and divide by the total current assets as at the reporting date with a good ratio considered to be 1:1 as a norm.

The ratio computation was as follows:

(current assets – inventory) / current liabilities

[(594 549 128,77 - 17 110 690,49)] / 440 868 786,29 = 1,31

=26%

4. Revenue management

A total of 7 095 water meter readings were captured as at 30th September 2026. This is a decrease of 440 meters from the previous month of August 2026.

Total revenue billing on water and sanitation services was reported at R13 450 668,65. An amount of R6 038 118,28 was collected for the month of September 2026, collection rate was recorded at 44 for this period, the municipality did budget to collect 60% of the own revenue sources. The revenue collected decreased by R143 655,63 (-2,32%) as compared to the previous month. The credit control and debt management policy was implemented from 1st July 2024, notices of disconnections were issued to all government departments with arrear accounts, businesses with arrear accounts were also swerved with notices and disconnections of water supply were implemented subsequently. Most revenue was collected around the areas of Tubatse Fetakgomo collected from the mines alone through disconnections of illegal connections. We continue to implement the credit control policy to other areas like Elias Motsoaledi, Ephraim Mogale and Makhuduthamaga.

We've successfully obtained permission from the National Treasury to participate in the RT29 transversal contract on prepaid smart water metering. All companies appointed under the RT29 were invited to the municipality for individual presentations on the contract, four of the seven companies responded and presentations were made to the revenue enhancement committee for evaluation in terms of the required specifications suitable to address the revenue related issues of the municipality, we're at an advanced stage to finalize the appointment of a suitable provider during the second quarter of the financial year.

The plan to implement the installation and maintenance of the smart water meters is outlined as follows in a process flow:

- The business community has been identified as the targeted customer group for piloting purposes.
- Greater FetakgomoTubatse will be our first area for installations given the larger business community in the area.
- Elias Motsoaledi will be second, followed by Ephraim Mogale and lastly Makhuduthamaga.
- Government departments will be second in terms of the targeted customer group for installations.
- Engagements already initiated with the departments as awareness on the smart pre-paid water meters.
- Households will be the third and last targeted customer group for installations with about 14 areas already identified for potential revenue growth.
- Installation of the bulk smart water meters at all off take points operated by the Lepelle Northern Water and some of the residential estates already identified.

The following processes will unfold during the implementation of the smart water metering:

- Establishment of satellite offices in each sub region as our technical support centre.
- Local municipal offices are to be used as satellite offices, Tubatse & Ephraim Mogale office spaces already secured.
- Training of staff and awareness campaigns to customers on how to utilise the new smart water meter system and request support.
- Establishment of a call centre facility for technical support.
- Installation of the vending points in various convenient stores.
- A one-month trial period is to be implemented in FetakgomoTubatse to test the efficiency of the system.

Notices of disconnection were also served to the government departments, and payments for services have since improved with the exception of two departments (Provincial Public Works & Education), the provincial department of Coghsta is currently discussions between the municipality and the two departments with reconciliations of the outstanding amounts at an advanced stage. The two departments visited the municipal offices for reconciliation of the amounts.

The revenue unit will embark on four revenue enhancement and collection campaigns within the district starting from 1st of June 2026 , procurement of the promotional material already has started. The campaign will promote payment of basic services, discourage illegal water connections, invitation of the applications as indigents and collection of data for purposes of automation of the billing data.

5. Supply Chain management

The following processes of procurement were implemented as at 30th September 2026:

- (i) Purchase orders equal or less than R 30 000 VAT Inclusive:
126 Quotations to a total rand value of R 1 508 401,18 were processed for the procurement of goods and services.
- (ii) Purchase orders more than R 30 000 but less than R 200 000 VAT Inclusive:
95 Quotations to a total rand value of R 7 956 516,23 were processed for the procurement of goods and services.
- (iii) Purchase orders more than R 200 000 VAT Inclusive:
72 orders with a total rand value of R 105 205 238,50 were processed.

The following competitive bidding processes were also implemented for the month of August 2026:

The municipality processed 5 requisitions of goods and services through the competitive bidding processes as at the month of September 2026. There are 05 bid processes are still in the evaluation committee. 05 tenders have been awarded as at 30th September 2026.

The municipality's UIF&W expenditure was as follows as at the month of September 2026:

Irregular expenditure **R363 683,40**

Fruitless & wasteful expenditure **R0,00**

Unauthorised expenditure **R0,00**

Unauthorized Irregular Fruitless and Wasteful expenditure as a % of total operational expenditure:

Norm is 0%

UIFW expenditure/ Total operating expenditure x100

363 683,40 / 337 249 342,91 x100

=0,00% for the month of September 2026.

The unauthorized irregular, fruitless and wasteful expenditure was within the norm in terms of percentage with an amount of R363 683,40 incurred as irregular expenditure for the month of September 2026. The increased UIFW from the amounts reported in the previous month is noted that the amount incurred as irregular prompts corrective measures to be implemented to remedy the root causes of the expenditure

incurred. R0,00 was the total rand value for all deviations as at 30th September 2026. Deviations were for services procured through processes where it was very impractical for the institution to follow the normal procurement processes.
